

Management burn summary- 2008-2009

Queens Domain

VMU	Area	Dates	Year
QD11	1.98	12 May	2008
QD36	2.16	6 & 13 May	2008
QD3	5.6	26 November, 18 December	2008

Bicentennial Park

VMU	Area	Dates	Year
LS10	1	14 May	2008
LS16	3.2	20 May	2008
LS9	6.6	10, 12 November	2008
LS19	1.2	6 May	2009

Ridgeway Park

VMU	Area	Dates	Year
RP20	6.5	21 May	2008
RP30a	12	30 April, 12 May	2009

Knocklofty

VMU	Area	Dates	Year
KR10	9.7	21-22 April	2008
KR27	2.2	28-29-30 April	2008
KR24	4	5 May	2009

McRobies Gully

VMU	Area	Dates	Year
MG9	2	18 November	2008
MG3	6	19 November, 16 December	2008
MG18	11	19, 20 May	2009

Please note:

- All burns were conducted in HCC managed bushland reserves, with the exception of KR27 which was primarily HCC bushland reserve but also included small portions of adjoining private bushland.
- All burns were scheduled under the relevant HCC Fire Management Plans. Vegetation Management Unit (VMU) codes quoted in this document are from the relevant fire management plan- please refer to these documents for full descriptions of each vegetation management unit.
- Each burn plan is subject to an impact assessment, including potential smoke impacts.
- Where necessary, permits from relevant State departments are obtained.
- Notifications to neighbours occurs at least a month in advance, and again on the days when burns are lit.
- Dates quoted are for the days of actual burning, and does not include the preparation, pre-burn weed control, post-fire mopping up and post-burn weed control works.
- For burns that took more than 1 day to conduct, the fire is blacked out at the end of each day and re-lit on subsequent burn days.
- Due to the wet spring in 2009 and subsequent high fuel moisture content, no burns were conducted.
- In the following section, the post-burn images can be up to 1 year subsequent to the burn taking place.
