Subject: RE: UPDATED Submission to FPA - Smoke standards/guidelines

Dear Mr. Stott,

Thankyou for your submission on the issues associated with the impact of smoke on health, and measures that could be taken to try to better regulate and control smoke emissions, take into account the impact on the air and public health, but do so in a way that still recognizes that fire still has a role in regeneration of Tasmanias eucalypts, and reduction of fuel in our forests and parks as part of avoidance of out of control hot bush fires.

I will discuss your submission with my colleagues, particularly with Mr Rockliff, who is our spokesman on Forestry matters.

Thank you again for your submission.

Yours truly,

Sue Napier MP
 Shadow Minister for the Environment, Parks and Wildlife
