

## Smokewatch 13.11.2009

The auto focus lens went crazy trying to focus on nothing except grey/blue matter (smoke). In, out, in, out, it was totally confused and couldn't handle the conditions at all. Blink, blink went the focus light showing me it couldn't lock on to anything.

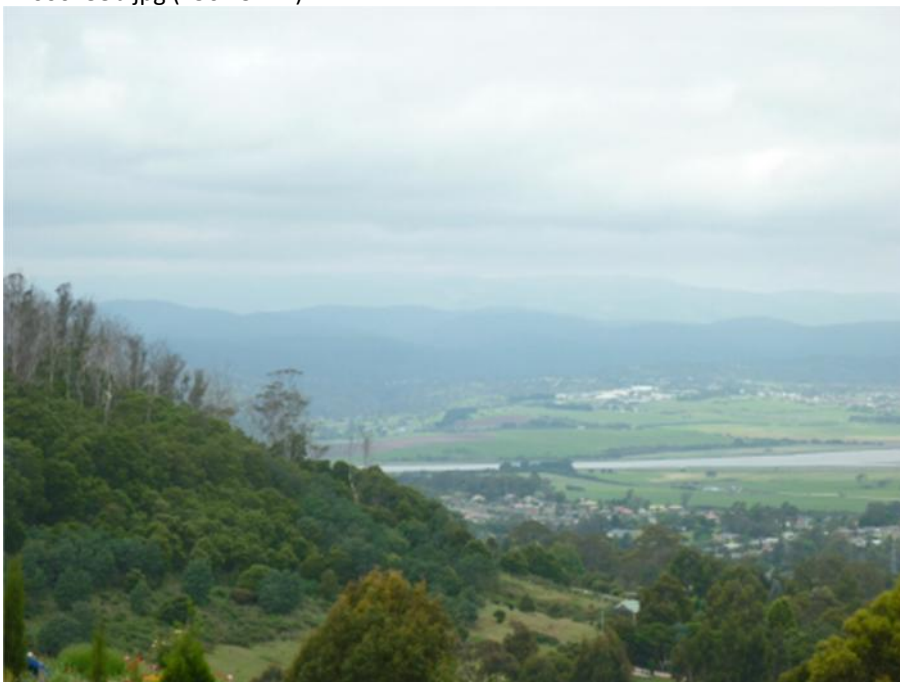

Launceston is not visible

Zoomed in a bit more you can ever so slightly see the outline of Mt Barrow.  
P1000132b.jpg (186.29 KiB)

People are breathing all this muck  
P1000133b.jpg (156.49 KiB)

The mountains and hills to the east of Grindelwald are not visible for smoke.
