Sun Apr 18, 2010 10:26 pm

We read by chance that Trevallyn Dam is to be burnt today by the Parks and Wildlife Service.

No proposed burn was put up on the PWS burn website, and no burn was shown on the site.

## THE EXAMINER April 17, 2010 — 17

### **Trevallyn burn-off:**

Several tracks at Trevallyn Nature Recreation Area will be closed at the weekend for fuel reduction burns. The Parks and Wildlife Service announced yesterday that the burns would happen today. Northern regional manager Chris Colley said fuel reduction was necessary to “improve public safety by reducing the rise and severity of bushfires”. He said Reedy Gully Track off Duck Reach Road and all walking and mountain bike tracks north of the Reedy Gully through Reatta Road and Havenbrook Drive would be closed.
