

## Smoke Watch 19.5.2011

Sun May 22, 2011 12:17 am

The smoke is on again.

Just as I was beginning to improve after the last smoke-out then we had to breathe this harmful stinking muck!

The smoke was as far as the eye could see in a N, E, S & W direction.

It was putrid.

This was taken from Grindelwald but the smoke was so thick I cannot recognise any features!
