

Smoke Watch28.3.2012

Sun Apr 22, 2012 1:32 am

The smell of smoke got stronger during the day and was still hanging around next day.

It infiltrated the Grindelwald home. It seemed to be all around.

Medications were commenced to help me breathe. Oxygen was required.

These photos were taken about 18.00hrs

Looking west from Brady's Lookout.
