Subject: BREATHE study

Dear Dr. Elizabeth Kpozehouen,

Bushfire smoke, asthma, lung disease and masks – BREATHE, a research study in 2021.

<https://kirby.unsw.edu.au/breathe>

I live in Tasmania.

As someone made ill by wood smoke I welcome this study into masking thank you.

I will not be registering for the study but would like to register as an interested person.

Thank you.

Kind regards,
Clive M Stott
