Dear Mr Stott,

Please be advised that the validated data for January, February and March 2010 at Launceston, Hobart and George Town is now available on our website.

Regards

Ellis Cox

Environmental Liaison Officer - Air

Dear Ellis,

Thank you for your reply.

This is disappointing.

If the problem is only with the server and the validated information is at hand, could you please email me the January, February and March readings?

Thank you.

Regards,

Clive

Subject: Validated Monitoring Data

Dear Mr Stott,

Thankyou for your enquiry regarding the current lack of validated air monitoring data for 2010 on the EPA Website.

January, February and March Data has been compiled and is currently awaiting publication to the Website. This data has been prepared for some time but due to a server malfunction publication of the data has not been possible. It is expected that the difficulties with the server will be rectified and publication will be completed in the very near future.

The aim of the EPA Division is to have validated data available on the website within 6 weeks of the end of the month in which the data is collected.

I apologise for any inconvenience to you caused by the unavailability of the validated data.

We will continue to work towards providing validated monitoring data to the EPA website within the 6 week timeframe indicated above.

Yours sincerely

Ellis Cox

Environmental Liaison Officer - Air
Scientific and Technical Branch
EPA Division
