

## 4.11.2010 Smoke Watch

Sat Nov 06, 2010 9:25 pm

This photo was taken at 2.11pm from Riverside in Launceston looking over the golf course where the smoke seemed to be coming from.

The smoke was blowing towards the West Tamar Council chambers.

It looked like green waste by the smoke...not sure why it couldn't be mulched, chipped, or taken to the green waste station.
